THE LOT LINES AND THE BUILDING SIZE*****

REGULATIONS

Shed required: When the building is more than 40' high and enclosing walls of same are within 10' of street line a substantial shed shall be erected in front of same to cover entire length of work and to extend from street line to curb. Shed to be properly lighted at night.

Fence required: When the building is less than 40' high and enclosing walls of same are within 10' of street line, a substantial fence shall be erected in front of same to cover entire length of work and not more than 1-3 width of sidewalk. Sidewalk to be properly lighted at night.

In wrecking any building or part thereof, story after story shall be completely removed. No material shall be placed on any floor in excess of its strength. All material shall be lowered to ground immediately after displacement. All material shall be kept wet when necessary to prevent excessive dust.

Guy ropes for derricks and hoist shall not be stretched across a street or public thoroughfare except by written permission of the building code official and in no case shall such guy ropes be less than 18' above the road bed of public highways.

***DEMOLITION OF A STRUCTURE DOES NOT IMPLY AUTHORIZATION TO
RECONSTRUCT. IF YOU PLAN TO RECONSTRUCT, CHECK WITH THE ZONING
DEPARTMENT PRIOR TO DEMOLITION.***

In consideration of being granted this permit, we hereby agree to do all work in compliance with the requirements of the Uniform Construction Code and other City of Erie ordinances. We certify that the above notations are true to the best of our knowledge and belief.
